SiloGrass

Stretch Wrap A name to remember

Silograss from Steve Orr Ltd. is a premier silage stretch film that has established itself as a market leader in the UK.

Silograss is a triple layer co-extruded blown film made from 100% Dowlex resins. The high tack levels and film impermeability ensures weatherproof bales that produce top quality silage consistently. Suitable for use on all types of wrappers, Silograss is ideal for round square or mini bales, and for a variety of crops.

Made on state of the art technology, the ISO 9002 certification offers you the guarantee and assurance that Silograss will perform to the highest standard every time you bale.

For trouble free wrapping and maximum protection insist on Silograss.

Reasons why you should trust SILOGRASS:

- Triple layer co-extruded construction for optimum strength and sealing
- High tack levels to eradicate 'tailing'
- UV sunlight protection
- Available in 4 sizes
- Made on the most technologically advanced equipment in the world, ISO 9002 certified
- Made from resin, 100% Dowlex LLDPE
- Proven on millions of bales
- Backed by Steve Orr Ltd., Technical Sales Team
